

IR link IR110

DESCRIPTION

The IR link makes remote control of DVD-/VCR-/Sat.Receiver-units possible from all TV sets. The IR link requires that the A110 amplifier is installed.

The IR link system consists of a receiver unit and an emitter unit. The receiver is installed at the TV from where the remote control needs to be performed. The emitter is mounted directly onto the IR-eye of the unit to be controlled and is connected to AV-modulators or the IR link output on the A110 amplifier. The IR link is supporting all available IR remote controls on the market.

Up to 6 IR receivers can be connected to the system. The IR receiver is offered in a black or silver design and has a red response LED indicating when IR signals are received.

TECHNICAL INFO

Electrical and Technical Data

Power Supply	10 Vdc (via A110)
Consumption	10 mA nom.
Output Impedance	100 Ohm (balanced)
Shielding	> 55 dB
IR Frequency Band	35 - 500 KHz
Range	Up to 8 m
Viewing angle	50 °

Construction and Material Data

Material	Die-cast zinc
Dimension	58x19x9 mm (Receiver)
Weight	Receiver - 71 grams Emitter - 28 grams
Colour	Black or Silver
Surface	Chromated
Connector	2,5 mm jack
Cord Length	2,8 m (receiver) 2,8 m (emitter)

Standards & Approvals

CE-marked according to	EN 55020 EMC-directive : 89/336/EEC
------------------------	--

PACKAGING INFO

Packaging Type A Internal B External C Transportation

570 330 210 2018

Quantity	1 pcs
Size	11,3 x 5,7 x 8,1cm
Weight	0,140 kg

570 330 210 2025

Quantity	1 pcs
Size	11,3 x 5,7 x 8,1cm
Weight	0,10 kg

570 330 210 2032

Quantity	1 pcs	5 pcs
Size	11,3 x 5,7cm	14,8 x 7,9 x 8,9cm
Weight	0,030 kg	0,180 kg

570 330 210 8355

Quantity	1 pcs
Size	11,3 x 5,7 x 8,1cm
Weight	0,140 kg

570 330 210 8362

Quantity	1 pcs
Size	11,3 x 5,7 x 8,1cm
Weight	0,10 kg
